

Do Your Best!

February 28, 2013

Dear Parents,

Hoagie orders and money due! Last day for Scouting for books!

Tonight we are going to "Talk Tech" and work on some of the electives in 21. 21B- Explain what a computer program does and write a letter and 21C- Tell what a computer mouse is and describe what a cd-rom is. In addition, we will identify parts of the computer. We can also forward the letter they type to you home and you can assist your Scout in printing out the document to then complete the agenda for the Computer Beltloop for those that did not already earn one.
